Pro-Safe A/S specializes in tendering for local and international customized projects in the marine and safety sector. Its focus is on governmental and military projects.

Pro-Safe A/S successfully done business in the following 5 business and product areas:

- Military boats
- Rescure boats
- After-sales service
- Safety equipment
- Police/Rescue equipment

Pro-Safe has a flat management structure offering our clients a communication platform that is quick, simple and smooth. This saves time and money when it

comes to getting the right product, compared to some of the huge international operators.

Mr. Søren West founded the company in 1999, and he has more than 25 years experience in governmental sales and projects. When it comes to special projects and tenders, Søren is still in charge.

Pro-Safe A/S has manufacturing plants in Northern Europe and has built up a professional system that allows individual modification solutions for each client. This means clients can order a unique product that perfectly suits their daily tasks and national requirements.

Military boats

Pro-Safe workboats are heavy-duty "workhorses." Our line-up of models includes various sizes (3-10 mtr) of RIB boats and inflatables made of GRP and neoprene Hypalon. With customization and a wide range of options available, Pro-Safe workboats can easily be tailored to meet specific project requirements for national and international clients.

Rescue boats

We have supplied RIBs to selected projects in IMO/SOLAS approved versions. We offer approved boats in 4.8 - 5.2 - 6.1 - 7.4 & 8.5 mtr sizes with various configurations.

Custom-made small crafts/RIB's

The series from 3.5 to 10 metres is a full range of well-proven hull-designs - adapted to each single project.

After-sales Service

The Pro-Safe organization provides technical after-sales support onsite or at our workshop in Denmark. We also have experience supporting clients with training sessions, spare part packages and analysis.

Police/rescue-equipment

We have worked with police and emergency care operators for many years as both manufacturer and agent. We have been involved in projects including:

- Inflatable tents and camps
- First aid bags for rescue teams
- Police equipment bags
- Safety vests
- Dive and watertight bags

Safety equipment

Our portfolio of products includes also boat equipment such as:

- Special safety helmet with visors/communication for the crew
- Lifejackets for boat crew, divers, pilots, army soldiers, etc.
- Shock seats for boat crew or storage boxes
- Rescue nets for cargo or safety MOB operations

Pro-Safe provides a total service commitment by making our products in-house for customers worldwide.

We have production plants

under same roof doing tube-, metal-, GRP- and cushion-parts. This gives us the unique flexibility to meet customers' requirements.

The list of models and product-line will be found on our website: Pro-safe.dk

We have experience in supporting clients with "full package solutions", including trailers, communication, training, spare parts, etc. And of course we provide technical after-sales support on site or at our service-department, which works with NATO countries every day and knows how to follow operational procedures.
